DESTITUTE CASE IN THIS CITY

AGED METHODIST MINISTER AND lower jaw of a medium sized skull MASON WHO IS UNABLE TO they can be removed without diffi-PROVIDE FOR HIMSELF-CALLS into nearly a semicircle and measures FOR IMMEDIATE HELP-MRS. five inches along its outer curve. Only LEVISON WRITES OF THE the skull. The corresponding one from CASE.

its outer face four inches, of which Christmas with its gayetles, its Sanless than an inch protrudes from its ta Claus and holiday cheer, is past and bone easing. In width each tooth is gone, but the memory is with us still five-eighths of an inch. Examination of one of them reveals the secret of ever in the glad New Year.

Never perhaps in the history of this, how a beaver can perform, such feats the queen city of the Gulf, has there as chopping down a birch tree sixteen. been a more prosperous Christmas inches in diameter, not to speak of season, more money spent, more gifts softer woods, like the basswood, of given, more hospitality extended while much greater size. a general holiday spirit seemed to

But do the merry pleasure seekers of the tooth is a thin plate of exceedin their gay rush after enjoyment ever pause to think that right here in our year midst is abject poverty eldense. pause to think that right here in our very midst is abject poverty, slekness, suffering, misery and destitution? Many a home where no Santa Claus ever comes, no gifts bestowed, no plum puddings, no turkey and grim want the daily visitor. Christmas tide affords many opportunities to find such places and our work known as "The Working Woman's Mission, Free Information and Health Burcau," is devoted to relieving the destitute, finding employment for those needing work and aiding worthy poor and sick when possible. Although our work lies chiefly among women, many a suffering brother appeals to us, and the latch string is ever out to all. Calls for food and clothing are constantly being made and to enable us to assist all such, we ask the friendly co-operation of all interested.

As these lines are penned a sad scene

the friendly co-operation of all interested.

As those lines are penned a sad scene is ever present which even the Christmas tide cannot efface, a small barely furnished upstairs room wherein lay a sick woman who for many long years has suffered from that dire disease, consumption, and probably had it not been for the remedies provided through our health department, might have been sleeping neath the sod. A recent acute attack has rendered this poor woman completely helpless, her only assistance and support being a crippled old man past seventy-five, whose brotherly kindness attended to her wants. Almost the bare necessities of life are wanting, and warm clothing for both is sadly needed. Christmas cheer was furnished solely by a very few who had learned of their need. It is a sad case and if something substantial is not done they will investigate, further facts will be furnished by the writer.

Another, perhaps more heartrending sight comes to view where physical suffering is extreme, where finances not over abundant prevents procuring help, in this case a little milk of human structured of their milks of them are worn. A Hindoo lady wears a large nose ring, a number of them are worn. A Hindoo lady wears a large nose ring, a number of rings in her ears, bangles galore on her wrists and arms, anklets of silver or gold and a ring on every toe. These or naments are very becoming to her dark beauty, and naturally they are a great source of pleasure, but unfortunately one which, together with the wearing of colors, is denied to widows, whose lot is a particularly hard one.

Anyhow a Hindoo woman has not a particularly cheerful life, for as she must never look upon the face of any man but her husband it is spent entirely in her hsmo, which, even if she be rich, is not in the least preity. The rooms are small and dingy, have bare walls, very little furniture, and their only outlook is upon the interior court yard, which is not made bright and preity, but is usually without a vestige of tree or flower.

al suffering is extreme, where finances not over abundant prevents procuring help, in this case a little milk of human kindness would go farther than the almighty dollar. Lying on his bed day in and day out, Rev. Moses Hewitt, a dear old man awalts the last call, for eight long years he has been paralyzed. He and his wife reside at the corner of Madison and Morgan streets.

A Methodist minister for many, many that ever lived. As a poet the author of corner of Madison and Morgan streets. A Methodist minister for many, many years, and now at the age of 79 a paralyzed helpless invalid even unable to read the blessed book. Sitting with his Hible on his knee preparing a sermon, he was stricken eight years ago; he fell and dislocated his thigh and hip, from which he never recovered. He cannot turn over in bed without help. For years this minister helped others, preached Christ crucified and gathered in the strong lambs, yet, today he is forgotten by his church and those who amid the rush of this busy world pass on never heeding. Over fifty years a Mason, paying his dues faithfully until sick, helpless and poor he was until sick and til sick, helpless and poor he was unable to do so longer. Forgotten again
by brother Masons whose very order is
an emblem of brotherly love. What is
Masonry? Is it not to fulfill the example of our Savior, but alas! is it being
fulfilled?

This poor cripple is attended solely seventy herself, partly paralyzed with a dislocated wrist and feet swollen and sore from constant use, this faithful helpmeet washes, irons, cooks, keep house and nurses the paralyzed man, lifting and turning him with no one to help no one to cheer. Although they own their home, their needs are great, their support, the income of renting a New rooms. Alone, unheeded and unthought of this tottering woman bears this great care, now completely worn out, is almost helpless herself. This case required immediate attention. As a Methodist minister and a Mason a Methodist minister and a Mason cannot a committee or committees be appointed to look after this paralyzed man, and assist the weary wife in waiting on and ministering to the sufferer. It must ever be a blot upon our fair city if such cases when presented to the public go unheeded. Our Father has not blessed us with gifts to be used seifishly, it is better to give than to receive if we but realized it.

Our mission work located at 1112 Florida avenue, Peninsular phone 404, is ever ready to go forward, but on account of limited finances is handicapped. Our information and health

capped. Our information and health bureau progresses, we have secured employment in various lines for all employment in various lines for an who have applied, but can place many more if they will call and leave address. The demand for household help and nurses is unlimited. Through our health department we reach the sick and our united work together we trust is helping suffering humanity. Those interested are cordially invited to call. Mrs. Lula K. Levison,

Manager Free Information and Health
